Electrical and Electronic Engineering Master Student at EPFL looking for a 8 to 14 week summer internship from June/July to September 2026.

SKILLS

- Programming languages and frameworks : C++, Python, MATLAB, Assembly, Overleaf
- Analog electronic circuit simulation : LTspice
- Electronics CAD : KiCad
- Computer aided design (CAD) : CATIA
- Digital logic circuits simulation and design: Logisim evolution
- Interpersonal: Teamwork, Communication

EDUCATION

- Electrical and Electronic Engineering Master : EPFL 2025/2027
- Electrical and Electronic Engineering Bachelor: EPFL (GPA : 5.73/6) 2022/2025
- Electrical and Electronic Engineering Bachelor exchange: NUS August 2024/May 2025
- Cours de Mathématiques spéciales (CMS) : EPFL 2021/2022

LANGUAGES

- English: Fluent
- French: Fluent
- Arabic: Native

INTERESTS

- Sports Tennis, Table Tennis, Volleyball
- Photography
- Cooking

PROFESSIONAL ACTIVITIES

Summer In the Lab internship

Microbiorobotic Systems Laboratory (MICROBS)

📅 July 2025 - August 2025

📍 EPFL, Switzerland

- Working on the readout circuit of the **CoroSense project** : A novel multi-sensor guidewire used to make Coronary Artery Disease diagnosis easier and faster.

Teaching Assistant at EPFL

- Analysis (Calculus) I / II / III
- Electrical engineering science and technology
- Electronics I / Electrotechnics II / Logic systems

HONORS AND AWARDS

EPFL Master Excellence Fellowship

📅 September 2025 - Present

- The EPFL Master Excellence Fellowship is a scholarship awarded to students "who achieved remarkable academic results and who distinguish themselves in extracurricular activities"

CO-CURRICULAR ACTIVITIES

Make projects EPFL

EPFL Xplore : ERC electronics team

📅 September 2025 - Present

- ERC electronics team : Working on designing and redesigning Printed Circuit Boards for the electronic system of the rover.

EPFL Spacecraft Team

📅 September 2023 - June 2024

- Electrical Power System (EPS) member : Assembling and testing the EPS PCB (Printed Circuit Board)
- Ground segment team member : Working on the hardware and software of the UHF antenna.

EPFL association

180°C Cooking Association

- Event team member : the Spice League : A cooking contest for students held in one of EPFL's professional kitchens.
- Communication team member : Creating recipes and different content and sharing them, in addition to posts about past and future events, across our social media platforms

Castor Freegan member

- Raising awareness about food waste and promoting sustainable consumption habits by cooking vegetarian dishes using unsold fruit and vegetables from supermarkets and distributing them freely to students.

CMS Coach

- Assisting new CMS students (first year preparatory students at EPFL) in familiarizing themselves with the campus, integrating into their new academic environment, and socializing with people through events.
